

FIRE ALERT!

“Adele? Is that you?” I wake up and see her staring at me. She tells me to come out of the tent. I follow her. Suddenly, I hear flames crackling softly.

“BUSHFIRE!” I scream! Someone is camping here too! Here, at the Mount Warning campground, is not safe. The other person here must have lit the fire!

As we walked over to the other campsite we see that the campfire is out. Suddenly, I hear a zip open. I ran into the bushes, only to remember this was Sophia and Florence’s campsite! I see Florence throw a matchstick into the scrub. It lights it on fire and she runs away!

I ran to my parents to find Adele calling the fire service. I tell my parents about the fires and they call the police (because Florence is an arsonist).

Soon the fire was under control, and Florence was in prison along with Sophia in jail. As the last flames were put out me and Adele thanked the firefighters.

Only after we got home I realised that more than a hundred kilometres of bushland was burnt! I was happy that everyone was safe though.

Though not much damage was done to people I was sad for all those bush creatures that may have been hurt. It would NEVER be the same. Soon the buildings would be rebuilt and the campground back open. The fire didn’t hurt me very much, but it would always make my heart hurt and my eyes water to think about that camping trip though.

THE END 😊
